

SALES AND MARKETING COORDINATOR, THE GIGATONNE CHALLENGE – INDIA

We are a radical, ambitious and fast-growing start-up seeking a Sales and Marketing Coordinator based in India.

LOCATION: India, WFH, travel required

REMUNERATION: USD \$400 (INR 31K) per month + internet reimbursement

TIME COMMITMENT: Full Time

Our mission is to tackle ten global challenges in ten years, starting with climate change.

We will achieve this through financing and training thousands of teams across the world. Our teams will be drawn from multiple sectors, including communities most impacted by these challenges.

They deliver meaningful results at both a scale and a pace reflecting the reality of a world where every month now counts.

IO-in-IO is a new type of organisation. We are not daunted by complexity, we are at home in complex situations, seeing them as opportunities for changing systems no longer fit for purpose.

Through our education arm, Complexity University, we train teams and individuals around the world to effectively tackle complex social, environmental and political challenges.

We have over 20 years of experience tackling complex challenges such as climate change, racism, youth unemployment, etc. That's why we believe that the best way to learn and tackle challenges is through practice, not through listening from a comfortable chair and taking notes.

We are headquartered in India and the U.K.
